

FREE PROVIDER-NEUTRAL TOOL

Claim Boundary Card

One public claim · five questions · about 10 minutes

Made by the Vibbrancy team · reading aid, not an independent audit or privacy grade

1

Copy the exact claim

Keep the original wording. Do not strengthen or paraphrase it.

2

Name the public source

Page, policy, store listing, or documentation · date read

3

Describe a reproducible check

One observation somebody else could repeat with synthetic data

4

Limit the scope

App version · device · setting · date · action

5

Write the boundary

What does the evidence not show? Where can wording be corrected?

KEEP THE INPUT NON-SENSITIVE

Use public wording and synthetic observations. Do not include private mood, journal, health, account, or identifying data.
